OFFICE OF THE DEWAN OF MYSORE
MUZRAI BRANCH
No. 4419

From

The Under Secretary to the Govt
Dewan of Mysore

To

The Muzrai Superintendent

Date Bangalore 24th Dec: 91.

Despatched

Received

Enclosures No.

Requesting to give early attention and suggest measures for the repair and preservation of certain temples &c

Proceedings of the Government of His Highness the Maharaja of Mysore

Order :—

Camp No 48 dated Hiriyur 24th December 1891

It was brought to the Dewan's notice at Turuvekere that the large temple of Byatarayaswami leaks in several places and is otherwise in bad repair. It is believed that temples in other parts of the country are also in a similar condition of disrepair. The Mouzrayi Superintendent is requested to give early attention to the matter and to suggest measures for their repair and preservation.

It was also noticed that in the temples of Channakesava and Sankara-swara which are good specimens of old architecture, plants grow in crevices on the walls and if neglected are likely to do permanent injury to the temples. The Mouzarayi Superintendent will, in com-munication with Deputy Commissioners

take

take early measures for the removal of such plants in these and other temples using if possible the new preparation called the "weed exter - minator", as well as put suitable Compound walls round these buildings which are of some architectural interest, and take proper steps for their preser - vation in due order

Under Secretary

" Deputy Commissioners of Districts

Bath, 11th Jany.

My dear Mr. Srinivasa Charlu

The "Weed
Exterminator" is a
poisonous substance
obtainable from
England and Australia
where it is used for
killing weeds and
noxious plants.

J. Hunter Mr.

Richetts may have
it as he made
some experiments
a few months
ago. It is very
expensive and
except for plants
of short duration
and delicate
constitution, not

Very affectionate
Yours very
sincerely
Dawson

No 9 in 436

D/ 4.2.92

From

The Muzrai Superintendent
of Mysore

To,

The Deputy Commissioner
Bangalore District

Sir,

With reference to your docket No. 848 of 12th January last requesting a supply of "Weed-Exterminator" I have the honor to inform you in reply, that the said mixture was found on trial to be — not very efficacious except for killing plants of short duration and of very delicate constitution and besides it is a poisonous substance requiring

requiring a very careful handling.

To destroy noxious ---
plants growing in the crevices
of temple walls or turrets, I -
would suggest that they may
be cut away as close as possible
to the wall or the ground
where they may be growing,
then make a hole in the stump
that remains insert Kerosine
oil in it every 2 or 3 days for
a month or so and then set
fire to the oil and thus -
repeat the process till the
stump rots away or dies.
Persistent efforts as above
must eventually kill the -
plants.

I have &c.

A

No. 437-43 Muzrai Superintendent
8/4-2-92.
Copy to the Deputy Commissioners of Kolar, Tumkur, Mysore,
Hassan, Kadur & Chitaldroog for information

Sir

With reference to your
docket no 848 of 12th June
last requesting for a sample of
"Weed Exterminator". I have to
have to inform you we regret
that the said mixture was found
on trial to be not very Efficacious
except for killing plants of short-
duration and of very delicate constitution
and besides it is a poisonous substance
requiring very careful handling

To destroy Roots coarse plants
& trees or turrets in ~~lawns~~ gardens I would suggest

the they may be cut away as
as possible to the wall or by
where they may be growing, then
make a hole in the stump that
remains, insert Kerosene Oil
in the every 2 or 3 days for a
week or so and then let fire to the
and this repeated the same process
till the stump rots away or dies
Persistent efforts above
must eventually kill the plants

This is the best & the most effectual
remedy of all the plants
